Sarah McDonald

WEB DEVELOPER

573.336.0990 – p.sweetpotato@gmail.com – https://github.com/psweetpotato

SKILLS

Object-Oriented Programming Languages: Ruby, Javascript

Web Frameworks: Rails, Angular, Express, Meteor

Databases: PostgreSQL, MySQL, MongoDB, Redis

Test Frameworks: RSpec

PROJECTS

TasteBuds:

Single-page web application created using the MEAN stack. A platform where users proclaim the best food in given categories and compare with friends.

Closetáp:

A group project built on Ruby on Rails completed during a 6 day sprint. My main responsibility was testing using Rspec, Cucumber, and Capybara.

EXPERIENCE

General Assembly: Web Development Immersive, Aug 2014 – Oct 2014

A 12 week long course that covers both backend and frontend technologies to deliver a work-ready skill-set with an emphasis on continuing education.

Skills covered include Ruby, Rails, Javascript, relational and non-relational databases, APIs, Git, etc. Outside of the curriculum I taught myself several technologies during our final project including MongoDB, Express, AngularJS, Node.js

EDUCATION

Hospitality Management: Southeast Missouri University - Cape Girardeau, MO

Graduated Cum Laude
Minor in Entrepreneurship

Baking and Pastry Arts: Johnson & Wales University - Charlotte, NC

Graduated Summa Cum Laude
